PREMIER IS IN FIGHTING MOOD

Asquith Will Undertake Reorganization of the Army.

TAKES HOLD OF WAR OFFICE

British Prime Minister Will Resign From the House of Commons Until Another Election Can Be Held—Sir Ian Hamilton May Succeed General Sir John French in Command of the Troops.

London, March 31.—Assuming additional duties to his already excessive labors Premier Asquith proposes to make the reorganization of the army a fighting issue. He has taken over the burden of the war office and will resign from the house of commons until after another election can be held.

Viscount Morley of Blackburn, lord president of the council, who was a partner with Colonel Seely in drafting the offending paragraphs of the document, stands in the same position and his withdrawal from office is expected.

The present situation is remarkable in that the government nominally will be without a prime minister and without a leader in the house of commons until the by-election is held in East Fife. The writ for the election must give eight days' notice.

Mr. Asquith will preside over the cabinet meetings and direct maneuvers in the house of commons from an unofficial seat, while Reginald McKenna, the home secretary, and Winston Spencer Churchill, first lord of the admiralty, will understand him as house leader.

Asquith Answers Bonar-Law.

"Oh, I'll be handy if I'm wanted," Mr. Asquith remarked to Andrew Bonar-Law, the opposition leader, who thought that the home rule bill could not be proceeded with in the absence of the premier.

Mr. Asquith apparently consulted no one except the king before his bold decision. He is also first lord of the treasury, which office he will continue to hold.

The political seers gather that Mr. Asquith is in fighting mood. They have been saying recently that he has shown the effects in his physical appearance of the heavy strain of his long labor in office and gladly would have seen the government defeated. But it looks at the present moment as if he has taken a new lease of life and proposes to make the reorganization of the army a fighting issue.

"The whole army system may have to be recast," Colonel Seely remarked significantly. The first business will be to find a successor for Sir John French, whose withdrawal leaves a great void at the war office. The name of General Sir Ian Hamilton is the most discussed. General Hamilton holds the position of inspector of the overseas forces at a salary of \$30,000 and the government would be glad to abolish the office.

Taft Sees Error of Way

Failed to Take Advantage of Publicity Service.

Boston, March 31.—Professor William Howard Taft reviewed his first year of private life after many spent in the service of the government.

"My first year as a humble citizen has been a success," he said. "I always deferred to public opinion as far as I could conscientiously."

"The question of publicity is really an important one with a president and has a great bearing on his peace of mind. I must confess that I was deficient in my duty in this respect. Both my predecessor and my successor have been far wiser in this respect."

HINES WINS \$15,000,000 SUIT

Mississippi Court Holds Law Does Not Apply to Outsiders.

Jackson, Miss., March 31.—Contentions of the Edward Hines Lumber company of Chicago, in a suit involving \$15,000,000 worth of timber lands in this state, were upheld in a decision of the Mississippi supreme court here.

The state attorney general brought suit against the company to enforce a law providing that corporations could not hold more than \$2,000,000 worth of land in Mississippi.

The court held the law constitutional, but decided it affected only domestic corporations.

MOTHER AND SON ARRESTED

They Are Charged With Murdering Woman's Husband.

Durant, Okla., March 31.—Mrs. Ella Lawson and her nineteen-year-old son are under arrest here in connection with the death of the woman's husband, J. Lawson, a farmer, who was shot and killed at his home near Bennington, Okla. Both charges of a double-barreled shotgun had been fired at Lawson as he lay in bed.

Another Quake Recorded.

Cleveland, March 31.—Father Odenbach, professor at St. Ignatius university, says his seismograph recorded an earthquake 3,000 miles away. He thinks the earthquake was either in Mexico or South America.

SIR IAN HAMILTON.

May Become Head of British Army.

NOTED COMPOSER IS DEAD

Life of Tito Mattel, Italian Pianist, Ends in London.

London, March 31.—Tito Mattel, the noted Italian pianist, composer and conductor, died here. He was born at Campobasso, near Naples, in 1841. Mattel was the composer of "Marta di Grand" and other operas. He was pianist to the king of Italy and wrote many popular ballads.

DIVORCES CAUSE OF CHILD DELINQUENTS

Chicago Judge Would Have Minors Provided For.

Chicago, March 31.—No divorce should be granted any person who has a minor child unless the child shall have been provided for to the satisfaction of the court in the conclusion of Adolphe J. Pettit, chief justice of the circuit court, in an analysis made public of the first annual report of the new municipal bureau of divorce and marriage statistics.

The close relations between divorce courts and the juvenile court, as indicated in the number of petitions for the care of dependent or delinquent children, is the outstanding feature of Judge Pettit's analysis. Juvenile court records since July, 1899, showed 50,358 petitions for the care of children. Of these the report indicated approximately 33,750 cases were the direct result of divorces or the neglect of parent through drunkenness or desertion which would have constituted sufficient grounds for divorce.

"Twenty cases were selected at random from the 240 cases filed in the juvenile court in January," said Judge Pettit. "We found six children were in the hands of the court as a direct result of divorces, five as a result of a father's drunkenness and four because of desertions."

NEW POST FOR TURK ENVOY

Ambassador to Washington Will Be Transferred.

Washington, March 31.—Youssef Zia Pacha, the Turkish ambassador, who has represented his government in Washington since June 14, 1910, is to be transferred soon to another capital, it was said here. The name of his probable successor is said to have been submitted to the United States government some weeks ago.

GOVERNOR BLOCKS HANGING

Refuses to Pardon Prisoner Under Sentence of Death.

Jefferson City, Mo., March 31.—Governor Major refused to pardon James Schrum, now serving a ninety-nine year prison term for the murder of Mont Hall in St. Francis county, and by refusing to pardon him, made it impossible for the sheriff of St. Francis county to hang Schrum for the murder of Gint Gibson.

The sentence of execution hanging over Schrum has been approved by the state supreme court.

LONG STRUGGLE EXPECTED

Thirty-five Thousand English Coal Miners on Strike.

Leeds, Eng., March 31.—Thirty-five thousand coal miners in the Yorkshire pits laid down their tools, demanding the introduction of a minimum rate of wages. Notices have been handed in by a further 35,000 men who will quit work on Thursday. The Miners' Federation of Great Britain has given its support to the strike and a long struggle is expected.

Not Real Militants.

Paris, March 31.—A few words from a police officer took all the militancy out of 300 suffragettes here. They had planned to march from the bourse to the Place de l'Opera, but meeting the officer quit cold.

WILSON EXPECTS REPEAL OF TOLLS

Vote Will Reveal True Strength of Administration.

IGNORES THE REPUBLICANS.

Secret of Success Is to Avoid Compromises With Opposition—Roosevelt Understood the Method—England's Action on Toll Issue Comes at Disadvantageous Time.

By ARTHUR W. DUNN.

Washington, March 31.—[Special.]—At this time everybody concedes that President Wilson will be able to win his fight for the repeal of canal tolls. If he does it will be a decided victory, for this is the first time that he has had to encounter serious Democratic opposition since he became president.

A president is much more successful when he can work with his own party, independent of and absolutely ignoring the opposition party, just as Mr. Wilson did with the tariff and currency bills. As soon as a president begins seeking support from the opposition because of a split in his own party trouble begins.

Understood by Roosevelt.

No one understood this phase of presidential success better than Theodore Roosevelt. All the time he was in office he was constantly opposed by many of the prominent men in his party, but he always reached out with a threatened alliance with the Democrats, and the old line Republicans of both the senate and house, knowing the effect of an alliance between a portion of the Democrats with the president and a majority of the Republicans, generally went to Roosevelt and made terms with him and thus put through measures as Republican legislation. In order to solidify his party Roosevelt oftentimes had to make compromises.

There is no opportunity for President Wilson to make compromises on the repeal of the canal tolls. It is a straight issue. Lining up against him are such men as Champ Clark and others, men who have considerable strength in the country and who seem to have been getting encouragement since the contest became acute.

Might Be Our Turn Now. It has always been said that whenever the United States has any difficulty, such as we are experiencing in regard to Mexico and the possibility of trouble with Japan, England always puts on pressure in order to force something that she insists the United States shall do. Thus it appears that, while we are still uneasy about Mexico and Japan, England has insisted upon the repeal of free tolls for our coastwise shipping. It has been suggested that it might be our turn now, while England is threatened with disturbances at home in regard to forcing Irish home rule for Ulster, to be independent and insist on having our way.

Hoke Smith Doing Well. Senator Hoke Smith of Georgia led a fight to parcel out the good places so that new senators could get positions on the important committees. It so happened that a number of the Democrats now in the senate landed well in the committee assignments, none better than Hoke Smith, who found himself on finance, postoffice and post roads and agriculture—three good places. Then in a shifting about later he secured other places, making a full complement of committee assignments.

They Require Attention. Congressman Slayden of Tennessee is always frank. One day when he wanted to speak he abandoned the idea and explained afterward to the house that he had a number of constituents in the city whose business required attention. "Everybody recognizes the importance of constituents," remarked the Texan, and many members of the house smiled because they knew that it is an important matter to attend to the wants of constituents.

The Scientists Win. A clever scientist who will establish himself in the department of agriculture can win nearly every time when there is a fight over the agricultural bill. There are a lot of good lawyers in the house, some farmers and quite a number of agriculturists, but there isn't any of them that are up in science so that they can combat anything that may have been told the committee by the scientists. We have more scientists in the agricultural department than anywhere else in Washington just now, and the indications are that they are doing good work for agriculture. An interesting fact about these men is that many of them might be securing much larger salaries in other employment, but they think they are doing more good for the government.

Cheapest Thing in the House.

Congressman Madden of Illinois was insistent about finding out something regarding public buildings. "I will inform the gentleman if he will contain his soul in patience," remarked Chairman Clark of Florida. "I haven't anything else but patience," retorted Madden. "That is the cheapest thing around here."

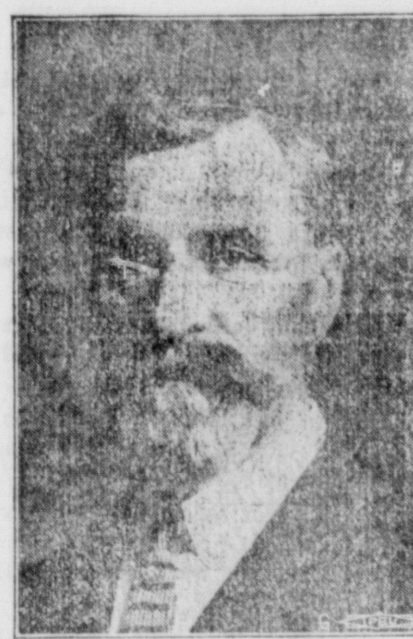

Members of the house are aware that patience may be cheap, but it doesn't get much.

Cold Space.

Scientists say that the probable temperature of outside space is at or very near absolute zero.

WILEY'S BABY TALKS LATIN

Former Chemist Says Son Never Tasted Cake or Candy.

Madison, Wis., March 31.—Dr. H. W. Wiley, famous pure food advocate, who is here this week, says his twenty-three-month-old boy speaks Latin as well as English.

"Harvey W. Wiley II. has never tasted any meat or poultry," said the chemist. "He has never had any candy sugar, ice cream, sweet cookies or other foods of that kind."

SOON TO NAME LIST OF RESERVE CITIES

Committee Ends Survey of New Currency System.

Washington, March 31.—After three months of consideration the reserve bank organization committee—Secretaries McAdoo and Houston and Comptroller of the Currency Williams—charged with laying the groundwork for the new currency system, is about ready to define geographically the limits of the federal reserve districts and name the cities in each district where reserve banks are to be located. It is the general expectation here that the announcement of these conclusions will be made about April 1, for the committee is known to have reached the point in its deliberations where but little remains to be done. The committee has taken precautions to keep its conclusions secret and has announced that any lists made previous to their official publication are merely speculative. Despite this fact there has been great interest here in the doings of the committee and volumes talked by those in official life who are not entirely within the inner circle.

CULT LEADER IS SENTENCED

Founder of "Heliga" Religion Gets Five Years.

Seattle, March 31.—United States District Judge Jeremiah Netter imposed a sentence of five years upon Albert Dahlstrom, founder of a religious sect known as "Heliga," who was convicted two weeks ago of violating the Mann act.

In the trial government agents testified that Dahlstrom used his "religion" to induce many young women to live with him in Chicago, St. Paul and Minneapolis.

KELLEY'S ARMY AT DENVER

Bread and Coffee Supplied on Their Promise to "Move On."

Denver, March 31.—One hundred and six unemployed men of "General" Kelley's army, en route to Washington, reached the outskirts of Denver. They were met by a squad of police and on promise to leave were not taken to jail.

A guard was left with them, after they had been supplied with bread and coffee, to see that they fulfilled this promise.

TWO CHICAGO WOMEN SLAIN

Man Found Mortally Wounded Suspected of Crime.

Chicago, March 31.—Mrs. Catherine Morris and Mrs. Sarah Sallans, lifelong friends and neighbors in the West Side, were shot to death while at work in their homes. Peter Welter, a boarder in the Sallans home, was found hiding in a closet of his room, mortally injured from two bullet wounds. He is suspected by the police of having killed both women and attempting suicide.

GERMAN AVIATOR TUMBLES TO DEATH.

Strasburg, Germany, March 31.—Captain Reinhardt was killed in an aeroplane accident. He was a passenger on a biplane which, in making a landing, tried to avoid a collision with a monoplane and capsized, dropping sixty-five feet.

COLONEL VICTOR HUERTA KILLED

GEORGE W. HILL IS DEAD

Prominent Official of Agricultural Department.

Washington, March 31.—George W. Hill, for many years a prominent official of the agricultural department, died after a protracted illness at Franklin, Pa.

When the secretary of agriculture first became a member of the cabinet Mr. Hill organized the editorial branch and developed the plan of widespread circulation of agricultural literature to farmers, agricultural journals and the press generally.

His knowledge of departmental affairs led Mr. Roosevelt, when civil service commissioner, to urge Mr. Hill's selection for that board.

CITY BUYS RAILWAY STOCK

Voters Decide to Issue Bonds for \$75,000 at Special Election.

Merrill, Wis., March 31.—At a special election it was voted to bond the city for \$75,000 to help build the Minneapolis, Merrill and Marinette railway, the city thereby taking a great share of the stock. The result stood 1,378 for and 32 against. But one railroad enters Merrill, the St. Paul.

LANDSLIDE IS THREATENED

Villages in Italy Are Evacuated in Face of Floods.

Venice, March 31.—A great landslide threatens the villages of Clauzetto and Vitodasio, in the province of Udine. Parts of the villages, which are inhabited by about 3,000 persons each, already have been evacuated, in the fear of more extensive slides caused by the overflowing of the rivers.

French Explorer Is Dead.

Bordeaux, France, March 31.—Emile Gentil, former commissioner general in the Chari district of the French Congo and well known as an explorer, is dead.

SIoux CITY MAYOR IS GIVEN THIRD TERM.

Sioux City, March 31.—Mayor A. A. Smith was re-elected for a third term over Jonathan W. Brown in one of the hottest municipal campaigns in the history of the commission plan of government in Sioux City.

TAXLESS FOR TEN YEAR

Wolf, N. D., Will Be Sued by State to Recover.

Fargo, N. D., March 31.—For nearly ten years the village of Wolf, with a population of 150, has been escaping taxation, according to C. R. Kositzky, secretary of the state tax commission.

Although the town was platted ten years ago the owner failed to record the plat. The state tax commission will begin suit to recover back taxes.

Son of Mexican President Falls in Torreon Battle.

BLOODY CONTEST CONTINUES

Details of Desperate Struggle Between Federals and Rebels for Possession of Torreon Are Very Meager, but the Indications Are That the Insurgents Are Gaining Ground.

Juarez, March 31.—A report reached here that Colonel Victor Huerta, son of President Huerta, was among the dead. It was also reported that British Vice Consul Cummings of Gomez Palacio was sent to Torreon by General Villa to suggest to General Velasco that he surrender.

Juarez, Mex., March 31.—The rebel and federal forces at Torreon are still engaged in battle, it was learned. This information came from Roberto V. Pasquiere, confidential agent of the Constitutionalists in the United States, who recently arrived here from Washington.

There were no facts to divulge save that fighting continues and that the contest thus far has been bloody and stubbornly contested on both sides. They said that no telegram from General Villa has been received saying that General Velasco had suggested a conditional surrender. They asserted positively, on the other hand, that federal representations of victory are absurd.

NOT TALKING FOR PRESIDENT

Wilson Repudiates Dudley Malone's Criticism.

Washington, March 31.—President Wilson was asked if Dudley Field Malone had spoken for the administration when he expressed opposition

to Governor Glynn's recent appointments in New York. The president replied that the only "mouthpiece" of the administration was his own tongue.

RECALLS DEFEATED MEASURE

Senate Will Consider Again Bill to Sell Coal Lands.

Washington, March 31.—The senate reversed itself and called back a defeated bill proposing to lease or sell to the Republic Coal company, a subsidiary of the St. Paul road, coal rights on 2,000 acres of Montana lands. The bill went to the calendar. A general pending bill for a leasing system for all coal lands may make special legislation unnecessary. The coal company supplies fuel only for the railroad.

UXORICIDE PLEADS GUILTY

Admission So Unexpected Judge Hesitates to Accept It.

Springfield, Mo., March 31.—Ollie Blades, on trial here on the charge of killing his sixteen-year-old bride, pleaded guilty to the charge of first degree murder.

The announcement of the attorneys for the defense was so unexpected Special Judge Skinner of the criminal court hesitated before accepting the plea.

POLICE CALL SYSTEM VOTED IN

Four Call Boxes to be Supplied—Gong to be Attached to the Hose Houses

POLICE MATTERS TO BE AIRE

Officer Chris Mattson, Discharged by Mayor, to Have Hearing at Friday Meeting

The council last night unanimously voted to install a police call system supplied by the Northwestern Telephone Exchange Co., consisting of four call boxes to be placed in designated places in the city, to which there shall later be added gongs to the hose houses. As explained by Fred Speechley, of St. Cloud, of the telephone company, the call boxes are telephones enclosed in metal boxes and attached to poles. Several feet from the ground the gongs are placed and when rung by the telephone operator they can be heard several blocks. Each policeman is supplied with a special key enabling him to open the box. He answers the call, talks over the telephone and is thus in direct communication with the chief. The telephone operator by pressing the proper button at the telephone office can call any certain policeman or can ring all gongs simultaneously.

Four of these stations were installed at St. Cloud and each telephone supplied with a six inch gong at a cost of \$32 each for the entire equipment. The telephone company charges \$2 a month for service. During the night the policemen travel their beats and regularly ring up central whose report shows just where each policeman has been and if he has traveled his beat properly.

At Fergus Falls a 16 inch gong is at the fire station. At Sauk Center a red light was tried to summon the policeman, but it was no good on a stormy night. Small gongs may be bought at \$7.50 each.

On motion, a contract for four stations similar to those of St. Cloud, is to be made with the Northwestern Telephone Exchange company.

The discharge of Officer Chris Mattson from the force is to be investigated at a meeting on Friday evening, the policeman being given a chance to be heard in his own defense. The appointment of Charles Varner, by Mayor Henning, to take the place of Chris Mattson, discharged for the good of the service, as stated by the mayor, was held up by the council and no action taken.

In the discussion over the matter, Alderman Mahlum wanted to know if Mattson wanted a hearing.

Alderman Lagerquist said Mattson had a right to be heard.

Alderman Anderson said the mayor must have been justified in his action or he would not have dismissed the policeman.

Mayor Henning said it was agreeable to him if they wanted to grant the discharged man a hearing. He maintained that such a request should come from the officer himself. He said a chief and three men were inadequate to handle the city's business. Somebody had to be responsible.

The mayor said he had discharged Mr. Mattson. If Mr. Scott and Mr. Olson had disobeyed him, (the mayor) they would also have been guilty of disobeying orders.

Alderman Hess said Mattson had told him he wanted a hearing.

The mayor submitted the name of Sam Bourquin, filling one of the places made vacant by the resigna-

tions of Officers Schulte and Nordstrom.

Liquor licenses were granted to Frank Wolvert, F. B. Winslow, Henry Betzold, J. P. Olson and Tom Bosley.

The mayor submitted a letter from the state fire marshal's office referring to cleanliness of alleys, streets, etc., and the mayor suggested the recommendations regarding fire prevention be embodied in the shape of an ordinance. It was referred to the city attorney.

Mayor Henning vetoed Ordinance No. 261, regarding electrical wiring. He stated: "I am returning here with unsigned Ordinance No. 261, same being an ordinance amending Ordinance No. 256, together with the following objections to the ordinance:

"This ordinance makes it the duty of the building inspector to inspect all wiring done in the city and pass on it.

"The city in Ordinance No. 256 has designated what are commonly known as Underwriter rules for wiring, etc., to be the standard adopted for the city of Brainerd.

"In this ordinance it goes further and states that all general laws of the state of Minnesota relating to electricians or electric wiring, that are not inconsistent with this ordinance are made a part of the ordinance.

"Sec. 5082, general revised statutes of 1913, provides for the appointment of a board of electricity for a term of five years, this board to consist of two master electricians, two journeymen electricians and a consulting engineer or electrical inspector of a city.

"Inasmuch as the state specifically specifies that the board of electrical examiners into questions of electricity etc., must be constituted almost entirely of men experienced with electrical work, I can see no good reason for not following as far as practical the precedent established by the state. We are a subdivision city in the state in which it has been decided that men experienced by training with electrical matters should be and are the proper practical men to judge electrical matters, and as this city employs a competent practical electrical, I believe that it should have all wiring inspected by a man who has become a practical man in that line of work."

A petition of Mrs. Emma Forsythe referring to the reduction of back taxes on considerable property in Northeast Brainerd, was favorably acted on.

Alderman Peterson reported on the gravel, and recommended the installation of a conveyor into which the men could shovel and thus load the flats at the Ahrens hill pit.

The sweeping machine of the city is to be supplied with a new broom. City Treasurer A. M. Opsahl increased his bond of \$20,000 an additional \$25,000, and it was accepted by the council.

Hartley & Albright submitted a letter calling the attention of the council to the workmen's compensation law and the need of insuring the city's force of men.

James H. Miller and Charles Coleman, through their attorneys W. H. Crowell and C. A. Russell, filed notice that the sewer running through their land in Northeast Brainerd was in a dangerous condition, that no part was properly constructed, that it was a damage to their property and they asked \$5,000 damages. It was referred to the city attorney.

The council considered the lease made to F. C. Reese of the pump house grounds for pasture purposes.

The mayor brought up several matters. The complaint of the owner of land granted the city for a roadway said additional roads were being cut into his pasture. The mayor

JOHNSON FOUND NOT GUILTY

Jury in Municipal Court Hears Case of Lad Charged with Stealing Baseball Suit

WAS VALUED AT TEN DOLLARS

Lad Arrested at the Time \$75 is Alleged to Have been Stolen from Iron Exchange Hotel

Taking five minutes for deliberation, a jury in the municipal court this morning rendered a verdict of not guilty and thus released from custody young Willis Johnson, charged with stealing a \$10 Brainerd baseball suit from the Iron Exchange hotel, Nick Lauer being custodian of the suit.

The lad was arrested by Chief of Police Quinn, according to the evidence given in court, and a suit case in the boy's room in the hotel was opened and the suit found. Chief Quinn said the room was searched for the \$75 reported stolen, but the money was not recovered. Johnson had never been arrested before.

Mrs. Lauer said the baseball suit was one of two left by Lauerman and Kingen to be kept by the hotel until called for.

Alderman D. A. Peterson, manager of the Brainerd baseball team in 1911, 1912 and 1914, identified the suit as one of the kind worn by the Brainerd team. A new one was worth \$11.65, all complete. The suit shown as an exhibit was in a sad state of wear. Sleeves, stockings, belt, cap, etc., were missing. He hesitated to put a value on the sady worn article as shown in the municipal court.

Nick Lauer testified as to the suit having been taken.

Young Johnson said he had taken the old suit from the linen closet at the time they were taking mattresses and beds from the rooms. He took an old pair of shoes and the baseball suit to his room. At the time he took one suit Emil Thorgard, said he, took the other one.

The attorney for young Johnson was M. D. Clark, of the firm of Alderman & Clark. For the state there appeared Assistant City Attorney B. J. Broady.

Clifford O'Connor, Donald Simmons and Monroe Paine were charged by E. J. Williams, special agent of the Northern Pacific railway, of wilfully taking and without permit riding and operating a track gasoline car, the property of W. J. F. Miller, on the railway track of the Northern Pacific railway. To this charge Simmons and Paine pleaded guilty. They are now serving 60 days in jail on another charge. The judge reserved sentence.

The case of Carl Rivers vs. W. J. Sullivan, a civil case, was not heard. Attorney C. A. Russell objecting because he had received but three day's notice of the trial, the statutes allowing four. Judge J. H. Warner took the same view of the case.

Brainerd Musical Club

Music being the poetry of sound, finds its highest expression in a perfect song, and nothing so effectually lifts one out of the commonplace, as an hour or so of song recreation. For this reason, the audience that filled Elks hall last night to greet Mme. Rose Lutiger Gannon, was a delighted and therefore a delightful one. Although it might have been a little more emphatic in its demonstration of approval, there was marked good feeling between the singer and her hearers that made the recital a distinct success from every point of view.

Putting aside all technical criticism or comment, one received a very accurate idea of Mme Gannon's influence over the audience by eavesdropping on individual comments upon leaving the hall. These were a few of them:

"Wasn't that a good program? We enjoyed every bit of it."
"It was just exactly the kind of program I like."

"She sings 'Annie Laurie' like a Scotchman." "Yes, but didn't she sing 'Der Schmied' and 'Minnelied' just like a German?" And others.

To analyze the finished recital, in finding out why everyone was pleased and satisfied to have been there, one would speak first of Mme. Gannon's personality, which was at once dignified, courteous and above all, natural and friendly; of the superb distinctness with which she pronounced every word of her songs; the artistic correctness of her singing; the color that she put into her tones, and paramount over all these, the rich contrast to quality and power of the voice itself. This rich quality dominated even the high notes of her songs, suggesting the richness of 'cello tones. The program was just the kind one enjoys—poetic little lyrics, ballads, with now and then a touch of deep dramatic feeling.

In conveying all these moods Mme. Gannon's voice did more than interpret. It visualized the spirit of every song, whether it were the fanciful harmonies in "Minnelied," the dramatic feeling in Verdi's aria from

TAKES OFF DANDRUFF HAIR STOPS FALLING

Girls! Try this! Makes hair thick, glossy, fluffy, beautiful—No more itching scalp

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair beauty.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.

Does Your Stomach Trouble You?

Mayr's Wonderful Stomach Remedy is Successfully Taken in Cases of Stomach, Liver and Intestinal Ailments

And One Dose Has Often Dispelled Years of Suffering

MAYR'S Wonderful Stomach Remedy will change that **Long Face!**

Mayr's Wonderful Stomach Remedy can really be termed a wonderful remedy and the benefits that it gives in many of the most chronic cases of Stomach Trouble has spread its fame from one end of the country to the other. No matter where you live you will find people who have suffered with Stomach, Liver and Intestinal Ailments, etc., and have been restored to health and are loud in their praise of this remedy. There is not a day but what one hears of the wonderful results obtained from this remedy and the benefits are entirely natural, as it acts on the source and foundation of these ailments, removing the poisonous catarrh and bile accumulations, taking out the inflammation from the intestinal tract and assisting in rendering the same antiseptic. Sufferers are urged to try one dose—which alone should relieve your suffering and convince you that Mayr's Wonderful Stomach Remedy should restore you to good health. Put to a test today—the results will be a revelation to you and you will rejoice over your quick recovery and once again know the joys of living. Send for booklet on Stomach Ailments to Geo. H. Mayr, Mfg. Chemist, 156 Whiting St., Chicago; or better still, obtain a bottle from your druggist.

THE GOOD JUDGE AND THE DEPUTY

IT'S different, it's better, and you will like it better. Take a small chew of "Right-Cut," and by the time you have used up half a pouch you will never go back to the big wad of the old kind.

Pure, rich, mellow tobacco, seasoned and sweetened just enough.

Different in cut, too. A ready chew. Short-shred, cut fine. The flavor comes naturally—like you want it to. No grinding or working. Just tuck away a small chew and let it rest easy.

The Real Tobacco Chew

10 Cents a Pouch

ASK your dealer today.

If he doesn't sell "Right-Cut," send us 10 cents in stamps. We'll send you a pouch.

We guarantee it to be pure chewing tobacco and better than the old kind.
